

SECURITY CONTROL ASSURANCE

Aurora Security™ has combined practices with Withum to ensure that security controls have a proficient strategy and implementation plan, are operating as expected, and are cost effective.

Security controls fall into four domains that, when integrated effectively, provide continuous asset protection. To minimize risk and maximize return-on-investment it is imperative controls are applied consistent with protection and investment payoff. Withum can help you integrate your security controls into an effective protection framework to reduce risk and increase return-on-investment.

WE ARE AN INDEPENDENT MEMBER OF
